

With the **GYSM** GIF Young Scientists' Meetings starting in 2017, GIF offers a new platform for young scholars from Germany and Israel. Young researchers doing their first steps in the academia will meet for workshops of 3-4 days to become acquainted with each other's work, learn about funding opportunities, and discuss their ideas with established scientists in their field of research.

## "Age related disorders: Focus on neurodegeneration and neuroplasticity"

27 February – 2 March, 2017  
Kloster Seeon, Germany

### Scientific Organizing Committee:

Prof. Dr. Mathias Bähr, University of Göttingen  
Prof. Michal Schwartz, Weizmann Institute of Science, Rehovot

The meeting will bring together a diverse group of young scientists across the fields of molecular and cellular neuroscience, translational neurology, neurogenetics, neuroimmunology, and cognitive neurosciences.

**The workshop is open to doctoral students in the last stages of obtaining their degree, and PhDs/MDs up to 5 years after establishing their own lab.**

Preference is given to participants who have no prior active funded research cooperation with scientists in the other country (Germany / Israel).

It is at the discretion of the members of the scientific organizing committee of each workshop to select the most appropriate candidates for a synergetic and productive workshop program.

Travel, accommodation, and meals of the participants will be covered by GIF.

Participation during the full duration of the workshop is mandatory.

**If you are interested in attending the workshop, please send the attached application form to GIF ([gysm@gif.org.il](mailto:gysm@gif.org.il)) no later than January 15, 2017.**

## GIF Young Scientists' Meeting (GYSM) Application Form

Please send your application by email to [gysm@gif.org.il](mailto:gysm@gif.org.il).

**Workshop Title:** Age related disorders: Focus on neurodegeneration and neuroplasticity

**Workshop Dates:** 27 February – 2 March, 2017

### 1. Personal Information

First Name	
Surname	
Date of birth	
Institutional affiliation	
Institution Address	

### 2. Scientific Background

Date of PhD/MD (or equivalent) diploma	
Title of doctoral thesis	
Research Field	
Research Interests	
Keywords	

**Please attach the following documents:**

1. Copy of PhD/MD or equivalent diploma
2. Short CV
3. List of publication

### 3. Previous German-Israeli Cooperation

Do you have any previous contacts/cooperation with scientists from the other country (Germany/Israel)?	<input type="checkbox"/> Yes	<input type="checkbox"/> No
If yes, please elaborate:		

I have read and agree to the guidelines, terms, and conditions of the GIF Young Scientists' Meetings (GYSM).
